

Housing & Environment

This section brings together information which captures housing information relating to the Borough at Neighbourhood level.

The information in this profile is provided in good faith. It should be used in a way which brings benefits to those people and communities who are most excluded.

We ask that you treat this information sensitively and in a manner that respects the people and organisations about whom it is written.

Notes:

1. The occupancy rating provides a measure of under-occupancy and overcrowding. For example; a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household; including one person households, requires a minimum of two common rooms (excluding bathrooms).
2. Figures for no bath/shower are so low, they need to be considered carefully.
3. Data for York Road area is skewed because the Census counted the units in Princess House (occupied by students at RMC Shrivenham) as separate households. This is why it comes out top for overcrowding and no bath/shower.

Data for small areas from which this table is derived has been randomly adjusted to avoid the release of confidential data. Totals may not match with other tables or sum correctly. For further information go to www.statistics.gov.uk/census2001/discloseprotect.asp

Notes:

1. A pensioner is a male aged 65 or over or a female aged 60 or over
2. A dependent child is a person in a household aged 0 - 15 (whether or not in a family) or a person aged 16-18 who is a full-time student in a family with parent(s).
3. This variable records each person's perceived ethnic group and cultural background.
